

Southwest ISD School Health Advisory Council

“No nation is any healthier than its children.”

Harry S. Truman

We believe schools, families, and communities can work in partnership to develop responsible and informed future citizens. We will strive to ensure every child will have the tools to achieve physical fitness, to maintain mental wellness, and learn in a safe and healthy environment.

-SWISD SHAC Vision Statement

We are looking for individuals who, in the words of Henry Ford, “have an infinite capacity for not knowing what can’t be done” to make things happen in the **Southwest ISD community**.

The purpose of the School Health Advisory Council is to bring together individuals and groups from our community to address issues affecting the health and well-being of our children, youth, and families. Your participation is important to our success. We believe more can be accomplished together than alone. The complex social problems threatening our children’s future require a united effort if we are to improve the quality of life for our children and families. Please join to make your community and schools more positive, health-promoting places to live and learn. We hope you will accept this invitation to join our council. If you have questions about the Council, please contact **Valerie Maldonado at 622-4453**.

The Southwest ISD School Health Advisory Council met on the following dates during the 2014-2015 school year:

October 28, 2014

December 9, 2014

January 13, 2015

February 10, 2015
